Introduction

A brief introduction to Bump magazine by editor PreggoBellyLover

Welcome to the world of Bump, the ultimate pregnancy pinup magazine! In this captivating publication, you will find exclusive pin-ups of various pregnant women of all shapes and sizes as they show off their wonderful glow throughout this magical time of their life.

At Bump, we understand that pregnancy is a deeply personal and trans-formative experience, one that deserves to be cherished and celebrated. As such, our magazine is a vibrant ode to the unique beauty of motherhood, showcasing powerful and stunning visuals of pregnant women in all their glory. We firmly believe that each woman's body tells an extraordinary story, and it is our mission to capture these incredible moments through captivating photography and art.

So, what can you expect to find in our vibrant and dynamic pages? Let's dive into everything Bump has to offer!

Reader's Letters: In this section, we will display and reply to your letters that you send in to the magazine. Although this is not implemented in this sample issue (instead this introduction is taking up where the letters will be), we hope to have it a

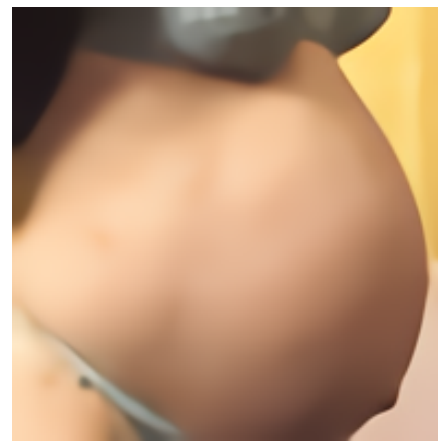

regular feature by the time we fully get up and running. Stay tuned to find out how to send in your letters!

Fashion and Style:

Pregnancy doesn't mean you have to sacrifice your style. On the contrary, it's an opportunity to embrace your blossoming body and discover fashionable ensembles that will make you feel like a true pinup. Bump will bring you the latest trends in maternity wear, from chic dresses and elegant evening gowns to casual, yet fabulous, everyday outfits and demonstrated by our gorgeous models.

Reviews: We're not all about the bellies you know, much to your chagrin I'm sure! Our magazine will also offer reviews of various products, ranging from video games to naughty toys! Just because you've got a round tummy doesn't mean you can't have some fun! Video game reviews will be done by our resident gamer girl Ami, who has been playing video games almost her entire life. For other reviews, our other models and guests will be sure to provide you with all the right information.

Photosets & Art: The main content of the mag! We will showcase gorgeous ladies showing off their marvellous,

PreggoBellyLover is the editor of Bump Magazine.

glowing bumps (you can see how we came up with the magazine name now, hm?!) in various sexy and seductive ways. Eventually, we will open up applications for you, the reader, to submit your photos and art to be displayed in the mag. Amazing! Details will be released at a later date so be sure to follow along PBL's socials and deviantArt pages.

Interviews: Each issue, we will be interviewing our models to ask them about their journey, life and how they became a model (not just for Bump). Our 1st interview, which will be in this sample issue, will be with none other than Ami who, as I'm sure you know of by now, has an incredible story to tell so be sure to check that out!

Meet the Artist: Do you make art that is centred around pregnancy? If so, you can be featured in the mag! Again as

with letters and models, details will be released at a later date. For this sample issue, this section will be with PBL.

The birth of Bump magazine was inspired by a deep desire to celebrate and empower women during this incredible phase of their lives. Bump was created with a single purpose in mind – to empower expectant mothers like you and celebrate the extraordinary beauty of pregnancy.

Thank you for being part of the Bump community. Together, let's celebrate motherhood in all its beauty and create cherished memories that will last a lifetime.

With love and excitement,

PreggoBellyLover | Editor

Interview Corner

Featuring: Ami

We speak to the lady with the eternal bump

When it comes to pregnant models here at Bump, no one is more famous and popular than our beloved Ami. In this 3 part interview, we will ask Ami about her modelling career, her time spent as a video game streamer and her life with an ever lasting bump! Let's begin.

Modelling Career

First of all, thank you for your time today, Ami. For our first part, we'd like to talk to you about your modelling career;

How has being pregnant affected your modelling career?

Ami: At first, I was very self-conscious about going in to modelling, "would I be accepted?" "would people like how I looked?" "could I pull off wearing this outfit?". But you don't know until you try, so I did and here I am today!

How did you feel about doing fully naked photo shoots?

Ami: Scary and very embarrassing! I'm sure everyone is like that during their first nude scene but my very first shoot was right here with Bump and their staff are so extremely supportive and caring. The fact they provide the option for the photographer to be either a man or a woman is a bonus since I know people would get very shy posing for a man.

What challenges, if any, have you faced in finding maternity wear for photo shoots?

Ami: So far, none really. Most if not all of the shoots are done with the belly on display so most of us are just in lingerie or underwear for most of the photos, with the exception of clothing reviews of course.

Have you noticed any changes in the way you approach posing or working on set during pregnancy?

Ami: Posing most definitely. With a tummy as large as mine, it can be very difficult to get in to certain positions or even down on to a bed. Fortunately, the staff here are always on hand to help and assist.

Ami during one of her early photo shoots for Bump and one of her first nude sessions.

What advice would you give to other expecting models who are navigating the industry?

Ami: All I can say is, if you are confident with yourself and want to get in to modelling? Just go for it. It is a nervous and sometimes anxiety inducing time but once you get in to it, it can be so much fun and entertaining.

Video Game Streaming

For our next series of questions, we'd like to ask about your time spent streaming video games in your current situation.

Ami enjoys long gaming streams as well as showing off her belly to her fans.

How long have you been in to video games and how long have you been streaming?

Ami: Probably as far back as I can remember. I've always liked games ever since I saw a family relative play on their console. After seeing that, I just had to hop on board! As for streaming? I'd say a year or two at this point, fairly recent.

What type of games do you stream?

Ami: Mostly casual stuff like platformers, RPG's, racing games. Nothing that gets me too stressed out. Well, much at least!

Do viewers often request to see your belly on stream?

Ami: Frequently. So frequently in fact that I made it a stream goal where after the threshold was met, I would pause the game and show off my belly during what we've come to call "Belly Time"! Plus it's a nice break from the gaming and the viewers get an eyeful!

Do your viewers enjoy both your gaming and belly time?

Ami: Some do leave after belly time but a vast majority do hang around and watch me continue the game. We also have chat time where I just basically talk with the viewers regarding whatever topic.

Have you done any collaborations? Are you planning any?

Ami: None yet but I would love to do a collaboration at some point. Who with? No idea! We'll have to wait and see.

The Everlasting Bump

And for our final series of questions, we'd like to ask you about that wonderful tummy of yours!

How has it felt living with such a round belly for all these years?

Ami: At first, very challenging and honestly, quite worrying! I feared on losing my independence and had to rely on others to help me get around. But over time, I learnt to cope with it and I feel I can do pretty

much anything, within limits of course!

Was the growth slow, fast, gradual?

Ami: My belly developed over a regular 9 month pregnancy, although it did grow a bit more during month 10. After which, it stopped and, well this is the result!

Now we've said, and even yourself have said, "pregnancy". But you've had scans and medical examinations, all of which returned negative. Can you share your feelings about this?

Ami: I've used the term pregnancy to describe myself because that's how it looks and feels. Scans show just static and over time, I just grew to accept that I look pregnant and that I should get in to pregnant modelling.

Has anyone expressed jealousy at your eternal round tummy?

Ami: Surprisingly, yes! I believe there's a couple of people known to Bump as well who are frequent surrogates and they do enjoy the experience. They do wish that they could have a perma-bump but that's not up to me!

And finally, do you get a lot of requests from people to do things with your belly? Can you list some of the more notable ones?

Ami: Ho boy, yes! I'm constantly being asked if people can touch it, rub it, kiss it. Some requests involve asking me to perform a belly dance, bounce up and down, suck it in/stick it out, slap it (gently of course), apply lotion and the list just goes on! I don't mind of course, at least I'm providing entertainment to folks!

And with that, we're done! Once again, thank you very much for your time Ami and you dear reader, enjoy Ami's photo shoot for this month, where she is the wicked witch of the woods, showing off a cute little witch costume before revealing all!

The Eternal Bump!

AMI

Occupation: Model, Streamer

You know her. She needs no introduction! The ever popular Ami is here as the Wicked Witch of the Bellies, ready to cast a few spells of a round nature!

Donning a cute witch outfit and slowly showing off her good bits, Ami is a charmer and knows how to please her fans, that's for sure! "Everyone's love and support for what I do is beyond amazing and I can't thank them enough!"

We hope you enjoyed Ami's interview above (if you didn't read it, go and do so!) and so enjoy this wonderful photo shoot with the one and only eternal belly bump!

Meet the Artist

Interview with the artists behind your favourite pregnancy-related works

Pregnancy art is a very popular area and its with great pleasure for us to provide you, dear reader, with exclusive interviews with some of the best artists out there.

This issue, we will be talking to none other than PreggoBellyLover (PBL for short)! Let's begin:

Please note that for the purpose of this sample issue, some of the questions were generated by AI.

How did you become interested in pregnancy art?

PBL: I've always been fascinated by pregnancy and the look of how it transforms a person. The beauty and I wanted to capture and celebrate this incredible transformation through my art.

Do you have a preferred medium or technique when creating pregnancy art?

PBL: I mostly work with 3D models for my characters and art. I've zero drawing talent and 3D modelling provides an easy way to make my art.

One question we do like to ask is how long have you been creating pregnancy art?

PBL: 12 years. Yes, 12 long years I've been in this field. I've enjoyed every moment of it and I hope to continue to provide art of my characters and stories for many more years to follow!

Can you describe your artistic process from start to finish when working on a pregnancy art piece?

PBL: Once I've come up with an idea (can take some time!), I would then fire up my 3D editor of choice and get to work. I sometimes have reference images to ensure I get poses right and to make things look as natural as possible. I'm not a professional mind you but at least people seem to enjoy my work!

Are there any specific themes or concepts that you like to explore in your pregnancy art?

PBL: I mostly create works for the modern era but I do dive in to sci-fi works from time to time. I also do some fantasy works, mostly involving giantesses and hyper pregnancy, but I do try and keep things as close to normal and

modern as possible.

Are there any specific challenges or considerations you face when creating art related to pregnancy?

PBL: Nothing in particular. As I mentioned previously, I do try and keep things normal or close to what is considered normal. I guess one of the challenges is ensuring that the 3D models at least look good and there's no issues with clothing clipping through the model or scenery, the latter of which can be quite bothersome at times! Other

than that, rendering times can drag on depending on the content but it is 2023 and there's other things to do during that downtime!

Do you offer any personalised or custom pregnancy art services?

PBL: Currently no. I just don't have the time or energy lately for it. Doesn't mean to say I won't open up to custom works, although as most of my models are pre-made, it's difficult for me to create say a model of a video game character and use her for custom art. Never say never though! If I do open up for commissions, I shall announce it on my Twitter/X and deviantArt page.

Can you share any memorable experiences or stories from your journey as a pregnancy artist?

PBL: Just the community as a whole really! Everyone is supportive and appreciative of my work and especially my characters, trying not to sound big headed here!

Do you have any favourite pregnancy art pieces that you've created? If so, what makes them special to you?

PBL: My current favourite is a piece titled "Country Lane Sunset" where it pictures my popular character Ami against the setting sun in the country. I just love how the light was captured against her and the near silhouette it creates of her. Easily one of the tops in my view.

Are there any particular artists or art movements that have influenced your approach to pregnancy art?

PBL: I don't wish to call out anyone in particular! Besides there's MANY artists that I follow who have all but inspired me over the years in my work. There are also group collaborations such as "Mayternity" and "Pregtober" for the months of May and October respectively. I occasionally take part in those if my mind is working properly to create art!

Are there any future projects or collaborations related to pregnancy art that you're excited about?

PBL: Not at the moment but I'm always open for collaborations and projects, if they're within my

PBL's current favourite image is actually the more recent "Country Lane Sunset". A stunning capture of their OC Ami against a beautiful sunset in the country.

technical limitations of course.

How can individuals interested in your artwork get in touch with you or view your portfolio?

PBL: Currently they can find me on Twitter/X, deviantArt and Fur Affinity (links provided below). Eventually I plan on launching a website with a more professional portfolio as well as other features such as character bio's and another place for my work.

Summer Safety

Tips on how to stay safe in the Summer heat

Summer is a fantastic time of year. It's a great time to relax, put up your feet, drink a nice, cool drink, and to have that belly glow in the sun! Of course, doing this will have consequences if you do not take precautions.

Follow our tips below from our models and health experts on how to keep yourself safe during the intense Summer months.

Keep Hydrated

The most obvious and important tip is to keep yourself hydrated. Drink lots of cool water, or your favourite kind of refreshment and always keep that drink bottle with you!

Dress for the Heat

Loose and light weight clothing can help cool the body in the heat and humidity. If heading to the beach, it should be much cooler but nevertheless.

Feeling dizzy/fatigued?

Find somewhere to sit immediately. Grab a drink and cool off. Head in to an air-conditioned building (if possible) or seek shade. Heat related illnesses can strike, especially during pregnancy when your body is under more strain.

Lotion Up

Sun screen lotion is vital, especially if you're in a bikini. Make sure you get strong factor Sun lotion and ensure you apply the lotion to all exposed parts of your body. A sun tan is nice, but sun burn is definitely not!

Take a break

This may sound counter intuitive, but seeking an indoor environment can be much cooler than sitting outside. If you find the heat is getting too much for you, head indoors, preferably to in air conditioned building if there is one nearby.

Indoor heat

Depending on your house, it may actually get hotter indoors than outdoors. Despite that, it is recommended to not open windows during the day as you'll just let heat in. If the room is in direct sunlight, draw the curtains to keep out the heat. Open windows at night when the temperature lowers.

Bedtime

Summer nights can be unbearable, especially if the humidity is high. Try to sleep in light and loose clothing, open the window and if you do not have air conditioning, invest in a fan just to circulate the air in the room.

Cold showers

Another way to cool off is to take a nice cold shower, but just not *TOO* cold of a shower! If your body cools down too quickly, your body will begin to heat up and as soon as you step out of the shower, it'll be like you never took one.

Final Tips

Summer is a fun and wonderful time of year, but it does come with dangers. Always remember:

- Apply lotion
- Drink regularly
- Seek indoors if the heat is too intense
- Avoid hot and spicy food
- Open windows at night, keep them closed during the day
- Sit in the coolest room of your house
- Close curtains if a room is in direct sunlight
- Have cool showers
- Sleep in loose clothing

Above all, have fun and stay safe!

Games Room

Ami talks and reviews the latest games

Welcome to the Games Room! In this section, you can find various news and reviews on the latest games brought to you by our resident gamer girl Ami!

This month, keeping with the spooky season, Ami reviews Resident Evil Village.

Please note: For this sample issue of Bump, this review was written by AI.

Title: Resident Evil Village
Developer: Capcom
Publisher: Capcom
Platform(s): PS4/5, Xbox One/Series, macOS, Switch (via Cloud)
Release: Out Now

A Terrifying Masterpiece Resident Evil 8 Review

Introduction:

Resident Evil 8, also known as Resident Evil Village, is the latest instalment in the iconic survival horror franchise. Developed and published by Capcom, this highly anticipated game continues the story of Ethan Winters, the protagonist from Resident Evil 7. Packed with intense gameplay, atmospheric environments, and a captivating narrative, Resident Evil 8 delivers an unforgettable horror experience that will leave players on the edge of their seats.

Gameplay:

Resident Evil 8 introduces a blend of first-person exploration, combat, and puzzle-solving elements that keep players engaged from start to finish. The controls are smooth and responsive, allowing for seamless navigation through the hauntingly beautiful environments. The game strikes a perfect balance between action and horror, with heart-pounding encounters against grotesque creatures that will test your survival skills.

One of the standout features is the inventory management system. It adds an extra layer of tension as you carefully manage your resources, making every decision crucial. The addition of a merchant system brings a welcome twist, allowing players to trade valuable items for better weapons and upgrades.

The game also introduces a variety of puzzles that are challenging yet rewarding. They are intricately designed, requiring players to pay attention to their surroundings and think logically. These puzzles not only enhance the gameplay experience but also add depth to the narrative, providing a sense of accomplishment when solved.

Visuals and Sound:

Resident Evil 8 showcases stunning visuals that push the boundaries of what is possible in a horror game. The environments are beautifully detailed, from the eerie village, Gothic castles, to dark forests. Each location exudes a distinct atmosphere, immersing players in a world that is both terrifying and captivating.

The character models are incredibly realistic, with attention to detail that brings them to life. The grotesque enemies are a testament to the game's stunning visual design, with their horrifying appearances adding to the sense of dread and fear.

The sound design in Resident Evil 8 is exceptional, playing a vital role in building tension and suspense. From the creaking floorboards to the distant whispers, every sound contributes to the immersive experience. The voice acting is top-notch, delivering convincing performances that draw players deeper into the game's narrative.

Narrative and Atmosphere:

Resident Evil 8 weaves a captivating and twisted narrative that expands on the events of its predecessor. The story is filled with unexpected twists and turns, keeping players engaged and eager to uncover the truth. The game successfully balances both psychological horror and supernatural elements, creating an unsettling atmosphere that lingers long after the game is completed.

The characters in Resident Evil 8 are well-developed and add depth to the overall narrative. Ethan Winters, the protagonist, is a relatable and sympathetic character whose journey becomes deeply personal. The introduction of new characters, such as the enigmatic Lady Dimitrescu, adds to the intrigue and mystery surrounding the game's plot.

Replayability and Length:

Resident Evil 8 offers substantial replayability, with multiple difficulty levels and various unlockable bonuses. The game encourages players to revisit areas, discover hidden secrets, and uncover alternative paths. Additionally, the inclusion of a New Game Plus mode allows players to carry over their progress and experience the game with enhanced abilities and weapons.

In terms of length, Resident Evil 8 offers a satisfying gameplay experience that spans around 10-12 hours, depending on the player's exploration and puzzle-solving skills. The game's pacing is well-balanced, ensuring that players are constantly engaged without feeling rushed.

Conclusion:

Resident Evil 8 is a terrifying masterpiece that successfully builds upon the franchise's legacy. With its impeccable gameplay mechanics, stunning visuals, captivating narrative, and immersive atmosphere, it sets a new standard for the survival horror genre. Whether you're a long-time fan of the series or a newcomer, Resident Evil 8 is an absolute must-play that will keep you on the edge of your seat from beginning to end. Brace yourself for a chilling and unforgettable experience.

Outro & Credits

A final message from PreggoBellyLover

And that just about wraps up the very 1st issue of BUMP Magazine! I apologise it was a short issue but I was away for most of August and didn't want to delay the issue once again.

I also apologise for the repeated content, again I just didn't have the time or energy to do anything new. However, I will do better for the next issue.

Speaking of...

The next issue will be the Christmas Issue! I know Halloween is before then but I won't have time to do both and I don't think people will have enough time to submit anything for both!

I'd also like to thank the folks who submitted their art for this issue, they're all awesome!

Again, sorry this was more of a repeat issue but I do hope you enjoyed it anyways. I'll have 4 months before the next issue so I've no excuses this time!

For now though, have a great day and I'll be seeing you around!
